## WARD DISMISSED

Adjutant General of Indiana  
Gets His Walking  
Papers.

### SHORTAGE IN ACCOUNTS

Committee Investigating Dave Sher-  
rick's Affairs Found Something  
Else Suspicious.

Ward Says It Was a Clerical Error  
But Governor Would Listen to  
No Explanation.

Indianapolis, Ind., Dec. 8.—Governor Hanly has removed John Ward of Monticello as adjutant general of the Indiana national guard because of irregularities in his accounts, found by the experts who have been examining the books of ex-Adjutant of State David E. Sherrick for the last two months.

Figuratively, the removal of Ward was quicker than a wink. Without parley the governor told Ward of the result of the investigation by the experts and said there could be no explanation that would satisfy him that the adjutant general ought to be continued in office.

Ward's shortage is alleged to amount to \$976.75. The records indicate that in making up vouchers for the pay of the militiamen of the forty-four companies of the state, and in making up similar vouchers for the supplies for these companies, Ward made the footings of the various items larger than they really were, drew a warrant for a larger amount than was needed to pay the several bills, deposited the whole sum in bank to his personal credit, and checked out against that deposit, paying the bills that were presented by the various companies, thus leaving part of the fund in bank after all bills had been paid. The records show that since Dec. 8, 1903, there have been fifteen reports so padded and warrants drawn for an amount, \$982.15 in excess of the real amount called for.

Ward says the errors are clerical in character. He offered to make good the amount claimed to be due, but the governor refused to accept it. Ward was first appointed adjutant general by Governor Durbin and was retained for political reasons by Governor Hanly.

Following the resignation, Mr. Ward said that the errors were merely errors of addition. "I never made the company totals in my life," said he. "These additions were always made by my clerical force. I have the money to pay any amount due the state, as soon as I am certain that a definite sum is due."

Ward's bond is for \$10,000, given by the Federal Union Surety company, Indianapolis.

### MAY BE RECALLED

Witnesses in Rhoades Investigation  
Want Another Chance.

Indianapolis, Dec. 8.—An affidavit was presented at the investigation of the charges against Miss Emily Rhoades, superintendent of the woman's prison and girls' industrial school, by Governor Hanly and the board of state charities, in which Mrs. Flora Kerr, a former employee at the institution, alleges that the death of Etta Hoppe, an inmate, was caused by her swallowing concentrated lye, and

that Miss Rhoades caused the real facts in the case to be suppressed and a report given out that the girl died from natural causes.

Mrs. Kerr also declared that Miss Rhoades gave her permission to "whip, spank or do anything necessary" to manage the girls, and that some of the inmates who have testified have been coached for the purpose of clearing Miss Rhoades of the charges against her. Girls referred to in the testimony taken by the board of managers in the recent private investigation, she declared were taken out of the laundry and given coveted positions. Some of these, it is understood, have testified in favor of Miss Rhoades.

Mrs. Kerr also charged in the affidavit that she was not permitted to tell all she knew about the institution and Miss Rhoades's conduct. It is very probable that she and other witnesses will be recalled and permitted to tell all they know, as there is much criticism of the governor and the charities board because of printed reports of the proceedings in which it was stated or intimated broadly that they were not impartial and that truth was being suppressed.

Colonel Winfield T. Durbin, during whose term of governor Miss Rhoades served, testified that he had regarded her as a good and efficient officer, and Dr. Mary A. Seely, former member of the board of state charities, said that she had often visited the school and that she believed that the management under Miss Rhoades was good.

### Imprisonment for Life.

Crawfordsville, Ind., Dec. 8.—The jury in the trial of John James, charged with the murder of Panel Beckner, returned a verdict of first degree murder and fixed the penalty at life imprisonment.

### A CONDUCTOR'S ERROR

Omaha, Neb., Dec. 8.—One of the worst railroad wrecks that has occurred on the Union Pacific railroad for years resulted from a head-on collision between a freight train and Overland Limited passenger, east-bound, five miles west of Rock Springs, Wyo. Ten persons were killed and nineteen were injured, eleven of them railroad employees and eight passengers. Five of the bodies of the dead were burned beyond recognition in a fire which destroyed the mail car, the combination dynamo baggage car and the dining car. Two of these are known to be mail clerks, and the other three were cooks who were sleeping in the diner.

The mail and dining cars were the scenes of the greater fatality, three mail clerks and three cooks being killed outright and one other clerk being perhaps fatally injured, his skull being fractured. Electrician Stigons and his assistant, Frank McKenna, were in the baggage car immediately following the engine and were also killed outright.

From the Union Pacific it is officially announced that the wreck was caused by the engineer and conductor of the freight train confusing their orders. They had received orders to meet four passenger trains, the last of which was the Overland Limited, at Ahsay, a siding five miles west of Rock Springs. The freight took the siding and when three of the trains, all of which were running close together, had passed Ahsay the freight started for the west without waiting for the Overland Limited. This latter train and the freight came together head-on, one and a half miles west of Ahsay. Engineer Brink of the freight is among the killed and his fireman, Oscar Peterson, was seriously injured. Conductor Roy Darrell of the freight admitted that he had become confused, thinking that all the trains which he expected to meet at Ahsay had passed.

Fortunately, the wreck occurred within a short distance of the Wyoming state hospital, which is located near Rock Springs.

Into Such a Horrid Gulf  
as This Russia Is  
Plunging.

### A NATION'S DELIRIUM

Thoughtful London Correspondent  
Throws Some Needful Sidelight  
on a Critical Situation.

How the Element of Reaction Is  
Gathering Forces to Fight  
Anarchy.

St. Petersburg, via Eydtkuhnen, Dec. 8.—The situation at Kieff is described as being an extremely serious one. Some accounts say that a massacre has taken place in which 1,500 persons were killed.

London, Dec. 8.—The correspondent of the Daily Telegraph at St. Petersburg, in a dispatch dated Dec. 6, while protesting against the "exaggerated and grotesque rumors" circulated abroad concerning the horrors prevalent in Russia, acknowledges that almost anything is possible to Russian people in "this time of revolution." He blames the anarchists as being largely responsible for the existing situation, saying: "Well knowing that legality will deprive them of their occupation, they are working night and day to plunge the country into a Serbonian bog of chaos and crime. Unfortunately a large section of the population is proving so weak and irresolute that the country is no longer shaped by principles, but is the slave of events, and the principal event is the delirium of the nation. While Count Witte's cabinet stands there will still be hope for Russia, but when it disappears the deluge will begin. Even now the dark clouds are visibly gathering. The peasants clamor for land, but they will not hear of disrespect to the emperor. A large percentage of the workmen also are incensed against the strike organizers and the revolutionists, and in some cases against the Jews."

The correspondent relates two instances—one, that a beautiful Jewish girl in the village of Ivano and another that of a school mistress named Doozhentzoff, in the Kuban district, both of whom were torn to pieces by infuriated mobs for preaching revolution.

He says: "These doings make civilized people shudder, yet they are part of what is threatened on a large scale by the element of the reaction which is gathering its forces and which is saying: 'If the laws are obsolete and the government is powerless, then we, the people, will rise up and bring the anarchists to reason. They have silenced our emperor and prevented him from giving us the land. Death to them!'"

The correspondent in conclusion says that the first important resignation since the formation of the cabinet will be announced in a few days, when the minister of justice, M. Mankhin, will retire to private life, but that this will not affect the stability and solidarity of the cabinet.

Prominent military commanders everywhere are requesting permission to resign. The minister of war himself, Lieutenant General Rudiger, has asked the emperor to allow him to retire. The minister of the interior (M. Dumov) and other have followed the example of the minister of war. Count Witte stands alone, but even he is losing heart.

### Assault on Russia's Credit.

St. Petersburg, Dec. 7, via Eydtkuhnen, Dec. 8.—Both the runs on the banks and the demand for foreign exchange have been accelerated by circulars which the strikers and revolutionary organizations are spreading broadcast. At the ministry of finance it is estimated that about \$50,000,000 has thus far been withdrawn from the state bank. The balance of gold in the treasury and abroad now stands at \$586,500,000 and the outstanding paper totals \$553,500,000, leaving the government a margin of legally issuable paper of about \$45,000,000. The government perfectly understands the character of the assault on its credit.

### Russian Strike Breakers.

Moscow, Dec. 8.—The directory of posts has received 700 applications from persons who are willing to fill the positions vacated by the strikers. Fifty of the strikers have offered to return to work. The telegraph and postal employees of several of the smaller towns in southern Russia have returned to work because they have no hope of a general strike at present.

### Banks in Hard Lines.

Warsaw, Dec. 8.—It is reported here that the directors of the various banks in St. Petersburg have informed Minister of Finance Solpoff that the banks will be obliged to cease business if the strike of the post and telegraph officials is not brought to a conclusion in the very near future.

### Soldiers Ready for Revolt.

Lodz, Russian Poland, Dec. 8.—The revolutionary ferment is spreading. The troops are holding meetings at the barracks every day, and many cases of insubordination are reported.

### JEROME DROPS A HINT

Criminal Prosecution May Grow Out of Insurance Hearing.

New York, Dec. 8.—Attention was directed to the possibility of criminal action growing out of the investigation of life insurance methods by a visit paid by District Attorney Jerome to the legislative committee while it was holding its hearing in the city hall. Mr. Jerome said that he wanted to

WILLIAM TRAVERS JEROME.

find out when he could get possession of a copy of the report of the committee. Chairman Armstrong already has said that he hopes to have it ready for the legislature when it meets next January.

Counsel for Thomas F. Ryan, who bought the James M. Hyde stock of the Equitable Life Assurance society, conferred with Charles E. Hughes, counsel for the latest sitting committee, and said afterward that Mr. Ryan is holding himself in readiness to testify before the committee.

One of the points brought out by Mr. Hughes in the hearing was the fact that the Mutual Reserve Life Insurance company had paid \$124,000 to the widow of Edward B. Harper, the former president of that company, since Mr. Harper's death in 1903. The money is derived from commissions which Mr. Harper drew on all the business written by the company. His widow, who has since remarried, continues to receive the commissions.

Incident to this inquiry Mr. Hughes discovered an instance in which \$8,000 had been paid to President Barnham of the Mutual Reserve Life Insurance company in 1896 and concerning which Vice President G. D. Eldredge of that company testified that he knew nothing. The bookkeeper who made the payment from a contingent fund said he did not know what it was paid for.

The affairs of the Security Mutual Life Insurance company of Binghamton, N. Y., are again under investigation. One of the interesting facts brought out was the statement of President Turner of that company that he had employed a few years ago D. H. Keefe, one of the clerks in the office of the superintendent of insurance at Albany to act as consulting actuary of the company at \$1,000 a year. For all Mr. Turner knew, he said, the arrangement still is in force.

### DRINKING THE DREGS

Measure of Mitchell's and Burton's  
Humiliation Is Complete.

Washington, Dec. 8.—Following his message resigning the chairmanship of the senate committee on inter-oceanic canal, Senator Mitchell of Oregon has informed Vice President Fairbanks in a telegram that he does not care to be appointed on any committee. His action establishes a precedent in relation to the active service of senators convicted of criminal offenses, which a member of the Republican committee to select standing committees will communicate to Senator Burton of Kansas. Senator Mitchell's request will be respected and it is stated that he and Senator Burton will be left off of all committees.

### PARSED APPROPRIATION

Bill to Give Sixteen Millions Out of  
Hand to Canal Work Cut to  
Eleven Millions.

In the Senate the Subject of Campaign  
Contributions Received Some  
Needed Attention.

Washington, Dec. 8.—An appropriation of \$11,000,000 was voted toward the construction of the Panama canal. The amount was a compromise between the \$16,500,000 carried in the bill under consideration and an estimate of something over \$3,500,000 recommended by Mr. Williams, the Democratic leader, to carry on work until the middle of January. Mr. Hepburn, in charge of the bill, suggested that something like \$11,000,000 was necessary to carry on the work until March. There was no intention manifest to delay the work, the only argument for cutting down the original estimate being that closer scrutiny might be had of the estimate. The bill was amended in accordance with suggestions by Mr. Mann of Illinois, directing the president to require annual reports from canal construction officers covering all details of the work; requiring such employees to give congress any information it may desire and restricting all expenditures to money appropriated by congress and to that received by the operation of the Panama canal.

Otherwise the bill was not amended and contains less of the appropriation a provision removing a tax disability against the proposed bonds to be issued for the construction of the canal, thus placing the bonds on a footing with other government bonds as available for security for national bank circulation and to reimburse the treasury for the money appropriated in the bill. The bond provision in the bill was a point of attack. Mr. Williams offered several unsuccessful amendments, all seeking to abandon the policy of issuing bonds for the canal work. Mr. Overstreet did not succeed in amending the bill so that the \$10,000,000 already expended in canal construction might be refunded to the treasury from the sale of the canal bonds. The bond policy of the two parties occasioned the feature of the debate and resulted in limited political discussions.

Secretary Taft, accompanied by the auditor and purchasing agent of the canal commission, came to the capitol and remained available to give any information that might be asked for on the floor, but they were not called upon. With the bill out of the way and no committees appointed to begin consideration of the several thousand measures that have been introduced since the session began, the house adjourned until Monday.

### CAMPAIGN CONTRIBUTIONS

Receive a Considerable Airing in the  
Senate.

Washington, Dec. 8.—The subject of campaign contributions by insurance companies occupied the major portion of the time of the senate yesterday. It came up in connection with Mr. Tillman's resolution calling for an investigation of national banks' aid in politics, and was exploited by the South Carolina senator in a speech of some length. The address dealt with the president's recommendations for the punishment of bribery in elections; with Senator Platt's testimony before the New York investigating committee and with various other pertinent matters. It was couched in characteristic language and attracted considerable attention. The resolution directing the secretary of the treasury to report whether the reports of the national examiners show that the banks have made campaign contributions in recent years was adopted at the close of Mr. Tillman's remarks.

Secretary Taft, accompanied by the auditor and purchasing agent of the canal commission, came to the capitol and remained available to give any information that might be asked for on the floor, but they were not called upon. With the bill out of the way and no committees appointed to begin consideration of the several thousand measures that have been introduced since the session began, the house adjourned until Monday.

### PAT CROVE ACQUITTED

Charge of Shooting Officer Not Sustained in Omaha Court.

Omaha, Neb., Dec. 8.—Pat Crowe, who has been on trial on the charge of shooting with intent to kill Officer Albert Jackson on the night of Sept. 6, was last night acquitted. He was remanded to jail, where he will be held until he can be tried on the charge of highway robbery in connection with the kidnapping of Gladie Cadahy, son of E. A. Cadahy, the millionaire packing house magnate, which occurred five years ago. There was no law covering kidnapping at the time the crime was committed, and for that reason a highway robbery charge has been placed against Crowe.

### FEUD FOLLOWED UP

Goebel Witness Shot by an Unknown  
in California.

Bakersfield, Cal., Dec. 8.—Charles E. Ehler, who was some years ago said to have been an important witness in the trials arising out of the killing of Governor Goebel in Kentucky, and who has been a merchant at Nome, Alaska, Fort Worth and Camp McKinley, was shot in the breast by an unknown assailant in front of the Southern hotel here. He positively refused to disclose the identity of the would-be assassin. The bullet struck Ehler directly over the heart, was deflected by a rib and was removed from the left side. He says that Ehler will recover unless blood poisoning sets in.

### But One Chance Remains.

Windsor, Vt., Dec. 8.—Preparations for the hanging of Mrs. Mary Rogers are practically complete, and unless Governor Bell again reprieves her the murderer will pay the penalty of her crime today. Deputy Sheriff A. McAuley of Wilder will spring the trap.

### A BIT OF HISTORY

No Woman Has Ever Been Legally  
Hanged in Indiana.

Indianapolis, Ind., December 8.—The protest made throughout the country against the carrying out of the sentence of death today in the celebrated case of Mary Mabel Rogers of Vermont, caused an investigation to be made by some people as to whether or not any woman was ever legally hanged in Indiana. Colonel John C. New, who conducted a newspaper here for many years and who is well acquainted with the history of the state, said there has never been a woman hanged legally in Indiana. He says the death sentence was pronounced on two, but one was commuted to life imprisonment and the other retried, escaping with a few years in the penitentiary. There are a number of women serving life sentences in the woman's prison here, but in no case was the death sentence passed. There is believed to be a growing sentiment in Indiana against capital punishment for men or women. Governor Hanly is against it and will probably recommend that the next legislature abolish it as a means of punishment.

The governor's summary action in demanding the resignation of Adjutant General Ward has aroused the men who said such bitter things about him for forcing Sherrick out of office a day ahead of the time he promised him in which to make a settlement of the money he invested. They say that the governor's desire to pose as a reformer is insatiable and that he removed Ward without giving him a chance to present any explanations or to defend himself. The governor merely demanded Ward's resignation and the incident, so far as the executive is concerned, was closed. Ward stoutly asserts that he did not take a cent knowingly that he was not entitled to, and is confident that he will be completely vindicated, yet he is greatly chagrined at the complication of his affairs. The matter was given over to Prosecutor Benedict, who will place it before the grand jury.

Charles Willard McGuire, president of the Lincoln League of Indiana, takes exceptions to stories sent out from here in advance of the meeting yesterday afternoon to the effect that the organization has not cut much figure in politics of late years and that during the last campaign it did very little beyond forming a few clubs and arranging for the convention of the National Association of Republican Clubs. He said that the league is in better condition than for many years and that the records show it organized more clubs last campaign than ever before. He also declared that the meeting here yesterday afternoon was one of the best of the kind in the history of the organization, over forty men from throughout the entire state were present. All but two or three congressional districts were represented.

### PROTEST FROM BOSTON

Proposition to Sink the Constitution  
Raises a Roar.

Boston, December 8.—Acting Mayor Whelton has issued a call for a public meeting of citizens to protest against the suggestion contained in the annual report of the secretary of the navy as to the historic frigate Constitution, which is now tied up at the Charlestown navy yard. Secretary Bonaparte suggested that so much of the material of the present Constitution as can be shown to belong to the original Constitution be transferred to a new vessel to be named the Constitution and the remainder of the ship to be broken up.

The secretary further stated that if for purely sentimental reasons it is thought that the ship is entitled to a maritime end it might be used as a target for some of the ships of the North Atlantic squadron and sank by their fire. The secretary's suggestions have been met by protests from many citizens of Boston.

Many a poor mother who feels that her child is in danger of disease, would be thankful to know what Doctor Pierce's wonderful "Golden Medical Discovery" has done to restore thousands of weak and wasted children to complete rounded, rosy, healthy, activity and life.

"Five years ago this last fall I was taken down with a fever and was very bad for several months," writes Mrs. Henrietta Bell, of Diamond, Ohio. She continues: "Finally recovered from the fever, then my lungs became very bad. The doctor said I had consumption and that he had done all he could for me, and he did not think that I could get well. My case was a very dangerous one. Became very weak, had night sweats, also a very bad cough, and night sweats. At times would spit blood. I felt as though my time on earth would be short. Requested my husband to get me a bottle of Dr. Pierce's Golden Medical Discovery, and perhaps it would help me. Before I had taken one bottle my cough was almost gone. The next to disappear were the night sweats. I am almost sure that if it had not been for your medicine I would not have been here today."

If mothers will only write to Dr. Pierce concerning the ailments of their family he will send them sound and valuable advice in a plain sealed envelope, and without any charge whatever. FRIDAY DEC. 8, 1905.

The officers of the Indiana Lincoln League met at Indianapolis Thursday to begin arrangements for the annual meeting to be held at Marion in February. There was a good representation present and much interest was manifested in the coming meeting.

ADJUTANT GENERAL JOHN WARD has tendered his resignation to Governor Hanly and the same has been accepted. It is alleged that irregularities in his reports were discovered and that his resignation was requested. The discrepancies in his accounts amounted to \$976.75 which he immediately made good by personal check. Ward says the irregularities were due to clerical errors made by his clerks. Some of the errors were against him but most of them were against the state. The public generally believes Ward honest.

Total approximate cost \$4550. The report was approved and clerk directed to make the same a matter of record.

### THE STORY OF VINOL

By The W. F. Peter Drug Co. of Seymour.

"Our experience with medicines extends over many years. We have had ample opportunity to watch thousands of them and their results, and we can honestly say that we've never sold a medicine in our store that gives more universal satisfaction than does Vinol.

This is because Vinol possesses intrinsic merit, and we want everybody in Seymour to know more about it, and why we stand behind it.

For centuries cod liver oil has been recognized as the grandest of all body building agents for wasted human strength and vitality—yet on account of the disagreeable odor, taste and heavy indigestible oil which envelops its curative elements, it invariably clogs the system, upsets the stomach and its virtue lost.

Now modern science has proved that the oil or greasy part has no value, either as a food or medicine, and the medicinal elements of which there are about fifty different kinds in the cod's liver represent all the tonic, body-building and curative powers of this famous old remedy.

After twenty years of study two eminent French chemists discovered a way to separate all these medicinal elements from the oil and livers and give to modern medicine all the valuable curatives of the cod's liver without a drop of the useless oil and thus made Vinol.

Vinol, therefore, is guaranteed to contain in a highly concentrated form all of these medicinal curative and body-building elements actually taken from fresh cods' livers without oil, and for this reason it is fast superseding old fashioned cod liver oil and emulsions.

As a body-builder and strength creator for old people, weak women, puny children, for the anemic and after sickness, and for all pulmonary troubles we honestly believe it has no equal." W. F. Peter Drug Co.

### Pleasant Hunting Trip.

Governor Durbin and his son have returned home after an enjoyable hunt of a few days in this county with J. H. Hodapp who used every effort to make their stay a pleasant one. They had better success the last day out and came in with a nice bunch of game. They were over in Hamilton township that day and took dinner with William Hodapp and family which means that they enjoyed a sumptuous feast in a most hospitable home. The day was delightful for hunting and Mr. Hodapp had arranged for the permits in advance so there was no trouble or delay in that regard. The Ex Governor is always welcome in Jackson county and our people hope that he will find it convenient to come this way again soon.

### Do the right thing if you have Nasal Catarrh.

Get Ely's Cream Balm at once. Don't touch the catarrh powders and snuffs, for they contain cocaine. ## CHRISTMAS CHEER.

Mary May Be Made Happy From The Fund That Is Growing Daily.

"It's a good thing" said one man yesterday who handed in his contribution, "I am glad to see it done." Such are the expressions on every hand about the DAILY REPUBLICAN CHRISTMAS FUND. And the additions every day to the fund indicate that our citizens are ready to back up their expressions with their gifts. Christmas is the one time of the year when a discordant note or an unhappy face seems especially inappropriate. And this fund will assist in bringing the smile of cheer and the joyful heart to many a child and many a home. Such deeds as these are doubly helpful blessing him who gives as well as those who receive.

The contributions are as follows: Previously reported.....\$29.25 Woman's Relief Corps.....2.00 Knights of Pythias.....5.00 Valentine S. Vogel, secretary.....1.00

# OLD SORES SAP THE VITALITY AND UNDERMINE THE HEALTH

Old Sores that refuse to heal are a constant menace to health. They sap the vitality and undermine the constitution by draining the system of its very life fluids, and those afflicted with one of these ulcers grow despondent and almost desperate as one treatment after another fails. They patiently apply salves, washes, plasters, etc., but in spite of all these the sore refuses to heal and eats deeper into the surrounding flesh, destroying the tissues and growing to be a festering, inflamed and angry mass. The source of the trouble is in the blood. This vital fluid is filled with impurities and poisons which are constantly being discharged into the sore or ulcer, making it impossible for the place to heal. It will not do to depend on external applications for a cure, because they do not reach the real cause, and valuable time is lost experimenting with such treatment; the most they can do is keep the ulcer clean. Any sore that will not heal is dangerous, for the reason that it may have the deadly germs of Cancer behind it. A cure can be brought about only through a remedy that can change the quality of the blood, and this is what S. S. S. does. It goes to the very bottom of the trouble, drives out the poisons and germs with which it is filled, and purifies and builds up the entire circulation. By the use of S. S. S. the sore is supplied with new, rich blood which corrects the trouble, soon stops the discharge, and allows the place to heal naturally and permanently. S. S. S. also reinvigorates the entire system, and where the constitution has been depleted or broken down it quickly builds it up and restores perfect health. Write for our special book on sores and ulcers, and any medical advice you are in need of; no charge for either. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

Restlessness and the exhaustion due to coughing, the greatest danger and dread of consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Many Seymour women know this. Read what one has to say about it: Mrs. S. A. Gibson, of 306 East Second street, says:—"As far as my experience with Doan's Kidney Pills is concerned I can highly recommend them. I was troubled with pains over the loins and my back was weak and lame. I also had depressing headaches, pains in the back of my neck, was nervous and restless nights and morning felt more exhausted than when I went to bed. Doan's Kidney Pills sold by Mr. Milhous the druggist, cured me of all these symptoms. I found them very easy to take and they caused no inconvenience while their quick and positive action gratified me highly."

### AN EXCURSION TO CUBA.

Two Indianapolis Teachers Arranging for an Interesting and Attractive Midwinter Outing From  
DECEMBER 22 TO JANUARY 2, INCLUSIVE

Before the Spanish-American War, Cuba was no better known to the average American than any other of the many islands adjacent to the continent, but today this island, with its chief city, Havana, is attracting more attention than all the others combined. Pursuant of many requests, which come to Messrs. Hall & Forsyth, of the Indianapolis High Schools, by persons who had accompanied them on other trips, for an excursion to Cuba, they visited the island in June, and now have every detail arranged for what promises to be the most attractive outing of the season.

The party will leave Indianapolis, Indiana, via the Pennsylvania Lines to Louisville, Ky., thence via the Louisville and Nashville Railway to Mobile, Ala., where they will board the Munson Line Steamship, "Prince George" for Havana, covering an itinerary of over three thousand miles in twelve days; two of which will be consumed in the trip on rail, over the beautiful country between Indianapolis to Mobile, and return; four on the ocean and six on the Island of Cuba. The ticket will cost seventy five dollars, and will cover every expense except meals while in Havana.

A beautiful booklet, containing one hundred and twenty-five pages of information and descriptive matter, is now ready for distribution. If interested in this trip, write the managers, or W. W. RICHARDSON, Ass't Gen. Pass Agent, Pennsylvania Lines, Indianapolis, Ind.  
J. H. MILLIKEN, Dist. Pass. Agent, L. & N. R. R., Louisville, Ky.
